SURYA MINES **SARL**

REQUEST FOR QUOTE

Reference No.: SM/EX/2026-01
Subject: Preliminary Exploration Services (Geological Mapping, Geochemistry, Ground Mag & IP Surveys)
Contract Period: 2026
Submission Window: June 12 – June 20, 2026

---

1. Company Presentation

SURYA MINES SARL is a mining company whose registered head office is located at No. 669, Avenue Kimbangu, Corner of Kapenda, Kiwele District, Lubumbashi.
The operational headquarters and main mining activities are located approximately 25 km from Likasi in Haut-Katanga Province.
The Company operates an open-pit mine supporting its hydrometallurgical plant operations and holds a total of 16 mining licenses in Haut-Katanga Province. In line with its commitment to operational excellence and social responsibility, SURYA MINES SARL places safety, employee welfare, health, and sustainable development at the core of its operational strategy.

---

2. Objective

The Company hereby invites qualified and experienced technical agencies/contractors to submit proposals for the exploration program will be conducted across 14 concessions located within a 100 km radius of the Kitemina plant in the Haut-Katanga region.

Scope of Work Includes:

- Geological Mapping
  Detailed surface geological mapping to identify lithology, structural features, alteration zones, and mineralization indicators.
- Geochemical Sampling and Analysis
  Systematic collection of soil, rock, and/or stream sediment samples followed by laboratory analysis to determine elemental concentrations and geochemical anomalies.
- Ground Magnetic (Ground Mag) Survey
  High-resolution ground magnetic survey to delineate subsurface structures, lithological boundaries, and potential mineralized zones.
- Induced Polarization (IP) Survey
  IP survey to identify chargeability and resistivity anomalies associated with potential mineralization.

2.1 Technical Services Required

The contractor shall provide:

- Highly skilled and experienced manpower for continuous execution of the work
- Necessary equipment and support as per the standard
- Final completion and technical reports upon completion of the work

---

2.2 Agency Suitability & Standards

Bidders must demonstrate:

- Technical capability and relevant experience
- Availability of suitable equipment and qualified personnel
- Compliance with DRC statutory and regulatory requirements
- Ability to execute the work safely and within the stipulated timeline
